

Ds dispatch

Simple and Connected Solutions for Dispatchers

Boost Efficiency while Keeping Drivers & Customers Happy

Integrated Route Optimization

 Integrated route optimization allows you to run your routes in the most efficient order each time!

Route Optimization Made Easy

 Dispatchers can build their routes using existing service and route information. They can even be presented with recommendations based on existing route density, proximity to the nearest stop

FEATURES

- Dispatch with drag & drop plus mapping
- AOS/iOS Driver application
- Printed and digital route sheets
- Routing queue
- User maps, Map plans (events)
