# The First Patented NTEP Certified Mobile & Cloud Based E-Ticketing Truck Scale Management System

Eliminate the Need for Paper Tickets, Scale House Servers and Physical Kiosks

Routeware is proud to annouce our partnership with MyTruckScales. MyTruckScales (MTS) is an NTEP certified mobile application that lets drivers weigh from their vehicles. Drivers can buy, and sell products from their mobile devices without leaving their trucks.

- Eliminate paper tickets

- Speed up the weighment process

- Receive weighments and enter required information for the job, using the virtual kiosks on your smartphones

- Reduce the potential for on the job injuries and lower insurance costs.

SAVE TIME AND BE MORE PRODUCTIVE

- Find nearby scales with ease and get directions to them with real time maps.

- Before you decide to go, see the scale's attributes and features. Is it a single platform or axle weighing? Does it have sensors or cameras?

- On pay-to-weigh scales, company drivers can use either their company's credit card or pre-established scale owner account billing codes.

- Independent Owner Operators can use credit cards for pay-to-weigh scales

- Create digital tickets

- View ticket data and full historical weighment reports by any attribute referenced on the digital ticket

- Get axle weighments for over-the-road (OTR) compliance

- Get single platform weighments to learn your gross or tare weights

- Take advantage of re-weighment discounts. Easily provide truck ID, trailer ID, bin ID and container descriptions for those jobs that require it
