

# SurfSight Dash Camera: One Device, Maximized Visibility, and Safety

Solid waste, street sweeping, and snow removal operators are looking to improve operational efficiency, driver safety concerns, and real-time visibility into community issues with the SurfSight Camera.

## KEY FEATURES

- Video download through the Portal
- Access on-demand video from any camera angle for increased visibility into day-to-day operations.

## BENEFITS

**Better service:** Confirm pick-ups, missed bins, and service issues with time-stamped footage.

**Increased operational flexibility:** Minimize downtime and adapt service plans according to real-time environmental conditions.

**Improved safety:** Monitor driver behavior, reduce accidents, and protect from false claims. Reconstruct events with video data.

**Proactive community engagement:** Address issues before they become complaints, building trust and goodwill with your residents.

**Data-driven decisions:** Make informed choices based on real-time insights and historical data.

## TECHNICAL SPECIFICATIONS

1080P HD wide-angle camera

Horizontal field of view: 118°  
Diagonal: 147°

Operating temperature: 32°F to 131°F (0°C to 55°C)
